** Additional information for the Setup Options, Rules, and Programs areas

Setup Options:

Setup Options are system-wide controls that must be enabled/disabled in CID Maintenance. Some Setup Options will not display until the related application has been accessed. Contact your consultant for assistance with enabling/disabling Setup Options.

Rules:

Rules are added or updated in the Rule Maintenance screen. If you are not familiar with adding or updating Rule Maintenance headers or details, contact your consultant for assistance.

Programs:

Programs are system-level routines that must be updated manually by ABIS personnel. You must contact your consultant to coordinate updating the associated Program before taking advantage of the enhancement.

Program updates may require system downtime, or may be required to occur outside of business hours.
