Change Description

Address Book

Hubspot API
43567

The Hubspot API service has been updated to allow the Company Properties selection from Hubspot to determine the Company Name format that gets processed to the Pending Orgs screen.

Item Control (Inventory)

Prompt 58 (Cycle Count)
43844

A new setup option (58SHOWQTY) will show the current on hand quantity for a scanned item when the P# code is scanned, and allow the user to accept or override the count.

Setup Options**: 58SHOWQTY

Shipping Events (Logistics)

Unload Carton
43647

A new CID Setup Option, SEUNPACKALL, and new terminal control prompts will move the inventory amounts and the unpacked items to the receiving warehouse in the GL when unloading a carton from the truck on an interplant transfer. This new functionality should make unloading the individual items from the transfer carton unnecessary since unloading the carton will process the inventory and GL movement. This functionality should occur when using Prompt 78 to unload or when using the Unload Carton prompt. This new logic moves both stock and non-stock items.

This enhancement was originally exclusive to the Adjutant 20/20 platform, but has been made available on the Desktop platform as well with this release.

** Additional information for the Setup Options, Rules, and Programs areas

Setup Options:

Setup Options are system-wide controls that must be enabled/disabled in CID Maintenance. Some Setup Options will not display until the related application has been accessed. Contact your consultant for assistance with enabling/disabling Setup Options.

Rules:

Rules are added or updated in the Rule Maintenance screen. If you are not familiar with adding or updating Rule Maintenance headers or details, contact your consultant for assistance.

Programs:

Programs are system-level routines that must be updated manually by ABIS personnel. You must contact your consultant to coordinate updating the associated Program before taking advantage of the enhancement.

Program updates may require system downtime, or may be required to occur outside of business hours.

Total Number of Changes: 3
